

# Risk Comparison

Trusts, Investment Advisors, Money Market Funds and Banks

	State-Regulated Trusts	Money Market Funds	Investment Advisors	Federal Reserve Member Banks	Non-Member Banks
<b>Rehypothecation of Customer Funds</b>	<p><b>No</b></p> <p>Not allowed - assets held directly for beneficiaries.</p>	<p><b>Some Cases, Regulated</b></p> <p>Rehypothecation allowed in some cases but regulated; assets are typically short-term debt instruments.</p>	<p><b>Possible, but Rare</b></p> <p>Registered Investment Advisors are generally prohibited from hypothecating without written consent and must inform the client of the terms</p>	<p><b>Yes</b></p> <p>Customer deposits may be leveraged and used for proprietary investment and lending purposes without requiring customer approval.</p>	<p><b>Yes</b></p> <p>Customer deposits may be leveraged and used for proprietary investment and lending purposes without requiring customer approval.</p>
<b>Allowable Assets</b>	<p><b>Conservative Only</b></p> <p>Conservative and stable (cash, short-term T-bills, overnight repos), reducing market risk.</p>	<p><b>Mostly Conservative</b></p> <p>Typically holds cash equivalents, T-bills, and commercial paper; less diversification compared to broader funds. Can hold up to 5% in illiquid securities and can change investment criteria with 30-days notice.</p>	<p><b>Various - Market Risk</b></p> <p>Wide range of securities, increasing exposure to market volatility.</p>	<p><b>Various</b></p> <p>Includes a variety of assets, such as loans and securities, regulated by the Fed, but riskier than trusts.</p>	<p><b>Various - Credit Risk</b></p> <p>Includes loans and other financial products, increasing credit risk.</p>
<b>Insolvency Protections</b>	<p><b>Yes</b></p> <p>Strong legal frameworks protect beneficiaries' interests.</p>	<p><b>Some</b></p> <p>Not insured by FDIC; regulated under SEC rule, offering some credit risk protections, but insolvency remains a possibility.</p>	<p><b>None</b></p> <p>Insolvency protections for customers of New York State Trust Companies are stronger than for those of investment advisors, as New York Banking Law § 100 explicitly protects customer assets from creditors in insolvency, while SEC Rule 206(4)-2 under the Investment Advisers Act of 1940 requires customer funds be held by qualified custodians but provides no direct creditor protection for assets held by investment advisors' custodians.</p>	<p><b>Only to FDIC Limits</b></p> <p>Federally insured by FDIC up to \$250,000, often offering more protection than non-fed banks, but trusts offer stronger legal protections.</p>	<p><b>Only to FDIC Limits</b></p> <p>Deposit insurance may apply, but protections are generally weaker than trusts.</p>
<b>Customer Asset Segregation</b>	<p><b>Required</b></p> <p>Under NY law, digital trusts must segregate customer assets from their own, maintain 1:1 backing, and adhere to strict fiduciary and custodial responsibilities to prevent commingling as outlined by NYBL Sec 100-c, Article 3, and NYDFS virtual currency Guidance.</p>	<p><b>Yes</b></p> <p>Customer funds must be segregated from the sponsor's assets through the use of separate custodians.</p>	<p><b>Varies</b></p> <p>Not always required to fully segregate client assets.</p>	<p><b>No</b></p> <p>Commingling of customer deposits with bank assets is standard practice.</p>	<p><b>No</b></p> <p>Commingling of customer deposits with bank assets is standard practice.</p>
<b>Leverage Limits</b>	<p><b>No Leverage is Allowed</b></p>	<p><b>Some</b></p> <p>Money market funds are generally not leveraged, but certain types may use limited leverage to increase returns.</p>	<p><b>Varies</b></p> <p>Can vary widely; some use significant leverage.</p>	<p><b>High</b></p> <p>Allowable leverage range of 16.67x to 25x</p>	<p><b>High</b></p> <p>Allowable leverage range of 11.11x to 25x</p>
